8:45 a.m. Duane Vos and Michael Northness, RACOM met with board to provide an update on the radio project. All sites have been secured and ground studies are underway. Michael stated the Grinnell site may take a little longer due to the airport and working with FAA. The materials for the towers cannot be ordered until all the ground studies are completed because that determines the type of foundation of the tower. The outdoor warning system upgrade equipment has been bid but there are five sites that have a larger coverage area, so the decision was to keep the coverage area smaller as bid or to increase the coverage and incur a price increase. They decided to go with a hybrid model to have the coverage for all the areas and this provided a cost increase. RACOM hopes to offset this cost increase by cost savings elsewhere. They are still looking at spring/summer 2023 for completion.

Moved by Roudabush, 2nd by Doty to approve the following claims:
